

Riparian Woodlands

48 *Fraxinus anomala* Woodland Single-leaf Ash Woodland

Association:

-*Fraxinus anomala* Woodland

Photo Signature Example

Common species:

Fraxinus anomala
Quercus gambelii
Amelanchier alnifolia
Ericameria nauseosa
Rhus trilobata

Project Specifics:

Frequency = 1 total polygons
1 polygons ZION, 0 polygons Environs
Area = 0.9 total acres
0.9 acres ZION, 0 acres Environs
Average Size = 0.9 acres

Description:

Single-leaf ash stands big enough to map were extremely rare in this project. Single-leaf was fairly common as a shrub or sub-canopy component in many other riparian and deciduous woodlands but was not found very often as a true association. This type was likely confused with gambel oak shrubland and other deciduous shrubland map classes. The one polygon mapped was based off the only known plot location.
